Uncompromised Check Solutions Premier Check Tier

The Uncompromised Premier Tier includes six layers of check security options: Granite/Parchment/Linen, Payee Positive Pay, Financial Secure, 3D Secure, Hologram Secure and our most secure, Ultimate Secure.

Granite/Parchment/Linen Checks

Unique check backgrounds enhance image as well as provide security. Three distinctive textures: Granite, Parchment and Linen are available in a wide variety of background colors. These backgrounds are difficult to duplicate, and the warning bands alert the handler that the check contains security features. All of these checks are printed on 25# toner bond paper, which is MICR-OCR laser compatible and feature Toner Adhesion, an Artificial Watermark and an Invisible Fluorescent Logo.

Payee Positive Pay Checks

Payee Positive Pay Checks comply with the cash management systems used by most banks to help reduce incidents of check fraud. The background image disappears when scanned allowing for clear image capture of the vital data on the check. Payee Positive Pay Checks enable the bank to review various aspects of a check presented for payment by comparing it against a supplied list of checks issued. These checks are printed on 25# toner bond papers, which is MICR-OCR laser compatible and are offered in four choices of color: Blue, Green, Burgundy, or Tan.

Financial Secure/3D Secure Checks

Prismatic backgrounds present a significant challenge for counterfeiters to successfully duplicate. 3D Secure Checks offer two choices of prismatic colors: Burgundy-Gray-Green and Blue-Rose-Yellow. 3D Secure prismatic backgrounds also include a three dimensional image of the word Secure. Financial Secure Checks offer a choice of two prismatic backgrounds: Blue-Red-Blue or Green-Tan-Green. Both 3D and Financial Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion.

Hologram Secure Checks

Hologram Secure Checks contain a three dimensional metallic image fused to the sheet and is considered one of the most unique and effective deterrents to forgery. Holograms are commonly referred to as an excellent but expensive defense against counterfeiting. However, Uncompromised Check Solutions provides this high end security option at an economical price. Hologram Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion.

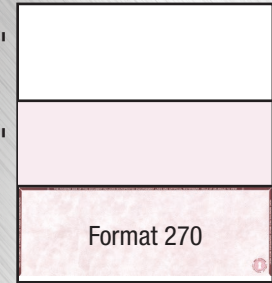

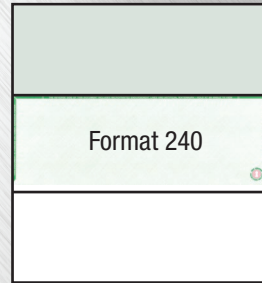

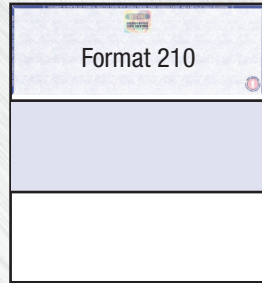

Ultimate Secure Checks

Ultimate Secure takes check security to the highest level, utilizing a hologram in an iconic eagle design, exclusive to the Premier line of Uncompromised Checks. Prismatic and image shifting pantographs in the background add another layer of protection against duplication or scanning and are available in four color combinations: Blue-Red-Blue, Gray-Burgundy-Gray, Green-Yellow-Green, or Burgundy-Blue-Burgundy. Overt fluorescent icons in the warning band, as well as covert fluorescent icons provide yet another layer of fraud protection, along with a survivable image. Ultimate Secure Checks are printed on the finest security paper available and include a True Fourdrinier Watermark and Toner Adhesion.

These checks are printed on 25# toner bond paper, which is MICR-OCR laser compatible and feature Toner Adhesion, an Artificial Watermark and an Invisible Fluorescent Logo.

Toner Adhesion - A chemical coating that prevents the lifting or alteration of printed information on checks, a common method of check fraud.

Artificial Watermark - An economical alternative to the True Fourdrinier Watermark. These marks can be viewed at a 45 degree angle but cannot be captured by copiers or scanners.

Invisible Fluorescent Logo - An effective tool used for authentication that appears in the signature area of the check. Can only be seen under black light.

Available Base Stock Designs and Colors

Financial Secure

Financial Secure Checks offer you a choice of two prismatic backgrounds: Blue-Red-Blue or Green-Tan-Green.

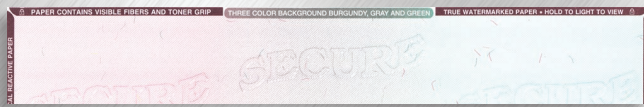

Blue (PMS 295) Red (PMS 193) Blue (PMS 295)

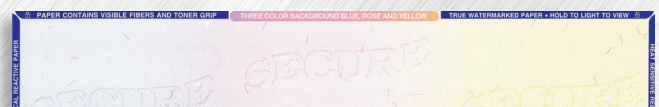

Green (PMS 329) Tan (PMS 471) Green (PMS 329)

3D Secure

3D Secure Checks are prismatic checks with the word Secure printed 3 dimensionally in the background making the check design extremely difficult to duplicate. The two choices of prismatic colors are Burgundy-Gray-Green and Blue-Rose-Yellow.

Burgundy (PMS 694) Gray (PMS 421) Green (PMS 564)

Blue (PMS 543) Rose (PMS 707) Yellow (PMS 609)

Hologram Secure

A Hologram is a three dimensional metallic image fused to the sheet. Holograms are one of the most unique and effective deterrents to forgery. The advanced optical technologies used have two main advantages: they are instantly recognizable to the naked eye and uniquely resistant to counterfeiting.

Blue (PMS 301) Burgundy (PMS 209) Green (PMS 348) Gray (PMS 423) Tan (PMS 146) Teal (PMS 321)

Ultimate Secure

Ultimate Secure takes our standard three dimensional hologram to a new level with an iconic eagle design. Additional features include an image and ink-shifting pantograph, overt and covert fluorescent icons and survivable image. Ultimate Secure Checks truly are the ultimate in check security.
